THE END

LAUGH a LOT

It was the first breakfast she had ever prepared in her life. She was the beautiful and somewhat spoiled daughter of a very rich man. But she had married the man she loved. And now she was going to give him a substantial meal, made with her own two dainty hands.

"How do you want your eggs?" she asked.

"Two soft boiled, my darling," was the answer.

"Don't come into the kitchen until I call you," she told him.

Ten minutes passed. Then another ten minutes. And finally a half hour . He knew something was wrong. Then he heard her sobbing. He rushed into the kitchen. There on the table were six eggs - all hard boiled

"I don't know what to do," she sobbed. "I don't know how long to boil an egg to get it soft. I tried ten minutes, then twenty minutes and I will keep on if it takes all day long. Or maybe I bought the wrong eggs.

••••••••••

Talking about eggs, reminds me of the first time I ever saw a dozen brown eggs offered for sale at the grocery story. There was no price marked on the white eggs or brown eggs.

"Which cost more, the brown eggs or the white eggs?" I asked the clerk.

"Lady," he smiled at me. "Everybody knows that brown eggs cost more than white eggs."

"I was born and raised in the city," I replied, "Can you tell me why brown eggs cost more?"

"Everyone in the country knows that a chicken lays white eggs in the daytime and brown ones in the night. So when it is dark those eggs are damaged. Therefore for every dozen you get in the city, one dozen had to be wasted."

This egg story concerns a woman of, well, let's skip her age. But we can say she was on her way to being an old maid. Then she met a widower. They kept company for two months and then they were married. She bought a cook book and learned about the many ways that eggs could be prepared. each morning she served her husband eggs. And each morning he gave her a peculiar smile and remarked:

"Not like the way my first wife made them. But I know you will learn, my dear."

If there is anything a second wife hates, it is a comparison in an unfavorable light, to the first wife. After two weeks she was completely discouraged. That morning she was making scrambled eggs. The door bell rang. A neighbor's girl was selling cookies for a charity. She got her pocketbook and bought two boxes of the cookies. When she got back to the kitchen she smelled the burned eggs.

"Hurry with the eggs, dear," shouted her husband. "Or I will miss the 8:15."

"I'll fix that husband of mine for good," said the wife to herself." Let him eat the burned eggs."

So she served them to him. And to her utter amazement he ate every bit of the eggs on the plate. Then when finished, he gave her a big kiss.

"You're wonderful," he complimented her. "You make those eggs exactly the same way my first wife did."

••••••••

A woman and her family went to a bungalow colony. Her husband told her he would bring the big grocery items from the city.

"Milk and eggs you get from the local fellow," he added.

She finally found the grocery store. It looked like something from the 19th century. She wanted two dozen eggs. But the price puzzled her. The sign read: "One dozen eggs - 65 cents. Two dozen eggs - $1.40." She did some mental calculations and then told the grocery man he was all wrong. It should be "One dozen eggs - 65 cents. Two dozen eggs - $1.20."

"You city folks are always criticizing," he replied. "That's the way my father did it. I do it the same way. Take it or leave it lady."

But she was still a wee bit smarter than he was and she smiled:

"You don't mind if I buy one dozen eggs once and then buy another dozen again."

Losing His Or Her Hair

If you are troubled by thinning hair dandruff itchy scalp if you fear approaching baldness read the rest of this statement carefully It may mean the difference to you between saving your hair and losing the rest of it to eventual baldness

Baldness is simply a matter of subtraction When the number of new hairs fail to equal the number of falling hair, you end up minus your head of hair (bald) Why not avoid baldness by preventing unnecessary loss of hair? Why not turn the tide of battle on your head by eliminating needless causes of hair loss and give Nature a chance to grow more hair for you? Many of the country's dermatologists and other foremost hair and scalp specialists believe that seborrhea, a common scalp disorder, causes hair loss. What is seborrhea? It is a bacterial infection of the scalp that can eventually cause permanent damage to the hair follicles. Its visible evidence is "thinning" hair. Its end result is baldness. Its symptoms are dry, itchy scalp, dandruff, oily hair, head scales, and progressive hair loss.

So, if you are beginning to notice that your forehead is getting larger, beginning to notice that there is too much hair on your comb, beginning to be worried about the dryness of your hair the itchyness of your scalp the ugly dandruff — **these are Nature's Red Flags** warning you of impending baldness Even if you have been losing your hair for some time, don't let seborrhea rob you of the rest of your hair

HOW COMATE WORKS ON YOUR SCALP

The development of an amazing new hair and scalp medicine called Comate is specifically designed to control seborrhea and stop the hair loss it causes. It offers the opportunity to thousands of men and women losing their hair to bacterial infection to reverse the battle they are now losing on their scalps By stopping this impediment to normal hair growth, new hairs can grow as Nature intended.

This is how Comate works: (1) It combines in a single scalp treatment the essential corrective factors for normal hair growth. By its rubifacient action it stimulates blood circulation to the scalp, thereby supplying more nutrition to still-alive hair follicles. (2) As a highly effective antiseptic, Comate kills on contact the seborrhea-causing scalp bacteria believed to be a cause of baldness. (3) By its keratolitic action it dissolves ugly dandruff. By tending to normalize the lubrication of the hair shaft it corrects excessively dry and oily hair It eliminates head scales and scalp itch.

In short, Comate offers you in a single treatment the best that modern medicine has developed for the preservation of your hair. There is no excuse today except ignorance for any man or woman to neglect seborrhea and pay the penalty of hair loss

COMATE IS UNCONDITIONALLY GUARANTEED

To you we offer this UNCONDITIONAL GUARANTEE. Treat your scalp to Comate in your own home, following the simple directions. See for yourself in your own mirror how after a few treatments, Comate makes your hair look thicker and alive. How Comate ends your dandruff, stops your scalp itch How Comate gives your hair a chance to grow. Most men and women report results after the first treatment, some take longer. But we say this to you. If, for any reason, you are not completely satisfied with the improvement in your own case — AT ANY TIME — return the unused portion for a prompt refund. No questions asked.

But don't delay. For the sake of your hair, order Comate today. Nothing — not even Comate — can grow hair from dead follicles Fill out the coupon now, and take the first step toward a good head of hair again
